*Laurence and Patrick are the best! My son's score has gone up 90 points so far because of their tutoring. My son describes Laurence and Patrick as "friendly and organized." He added that the sessions were always very productive. They were always available to answer any of my questions and concerns and would reach out to my son in between sessions and even emailed final pointers before the actual SAT exam. They went above and beyond to replace missing handouts and made a personal trip to drop off the handouts. We cannot thank Patrick and Laurence enough!*
